PROFESSIONAL SUMMARY

Full-stack developer with **2+ years of hands-on experience** building and deploying web applications using React and Node.js. Skilled in API integration, backend logic, and performance optimization, with a strong focus on developing secure, scalable, and user-friendly systems. Proven ability to deliver real-world solutions through client work and independent projects.

TECHNICAL SKILLS

- **Frontend:** React, TypeScript, Tailwind CSS, Redux
- **Backend:** Node.js (Express), REST APIs
- **Databases:** MongoDB, MySQL, Firebase
- **Tools:** Git, GitHub, Postman, Swagger, Vercel, Netlify

PROJECTS & EXPERIENCE

School Management System (*Flagship Project*)
React · Node.js · Express · MongoDB

- Built a full-stack platform supporting **5 user roles** with secure JWT authentication and role-based access control
- Developed automated result computation (grades, averages, attendance), reducing manual processing workload
- Engineered **60+ REST API endpoints** with validation and security middleware (Helmet, CORS)
- Implemented server-side PDF generation (PDFKit) for results, reports, and admission documents
- Deployed on Render with responsive UI optimized for mobile and desktop

Uootes Technology (*Client project*)
React · Node.js · MongoDB

- Integrated APIs using Swagger, improving frontend-backend data flow and system reliability
- Collaborated within a team to deliver core features and enhance user interface usability
- Resolved data flow issues, improving application stability and performance

Medimama App (*AI project*)
React · Node.js · MongoDB

- Built an AI-powered health assistant delivering real-time, context-aware responses
- Developed backend logic for API communication and asynchronous request handling
- Improved system responsiveness and reliability through performance optimizations

Website Link: https://medimama.netlify.app

Shepower Nexus Hub (*Collaborative project*)
React · Node.js · MongoDB

- Developed core frontend components and improved user interaction flow
- Contributed to building a platform for mentorship and learning in tech
